# Ague Cure

Is a purely vegetable bitter and powerful tonic, and is warranted a speedy and certain cure for Fever and Ague, Chills and Fever, Intermittent or Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, and all malarial disorders. In minasuate districts, the rapid pulse, contel tongue, thirst, lassitude, loss of appetite, pain in the back and loins, and cooliness of the spine and extremities, are only premonitions of extremities, are only premoultions of severer symptoms, which terminate in the ague paroxysm, succeeded by high fever and profusa perspiration.

and profuse perspiration.

It is a startling fact, that quinine, arsents and other poisonous minerals, form the basis of most of the "Fever and Ague Preparations," "Specifics," "Syrups," and "Tonics," in the mirket. The preparations made from these mineral poisons, although they are palatable, and may break the chill, do not cure, but leave the malarial and their own draw poison in malarial and their own drug poison in the system, producing quinism, dizziness, ringing in the cars, headache, vertigo, and other disorders more formidable than the disease they were intended to cure. Ayen's Ague Cone thoroughly eradicates AYEES AGUE CERT thoroughly eradicates these noxious poisons from the system, and always cures the severest cases. It contains no quinine, mineral, or any thing that could hijure the most delicate patient; and its crowning excellence, above its certainty to cure, is that it leaves the system as free from disease as before the attack.

For Liver Complaints, Aven's Agen Cene, by direct action on the liver and biliary apparatus, drives out the poisons, which produce these complaints, and stim-nlates the system to a vigorous, healthy We warrant it when taken according to
